#### 2.1 Summary of Board Connectors

# MH261T Series

## Bar Code Printer Service Manual

---

Connector	Description
1	USB Host connector
2	Power supply output (5V/36V DC) connector
3	Wi-Fi Module connector
4	Parallel Port board connector
5	GPIO interface board connector
6	Head open sensor connector
7	Gap sensor connector
8	Ribbon encoder sensor connector
9	Power supply output (24V DC) connector
10	Lower BM Sensor connector
11	Paper Distance Sensor connector
12	BT module connector
13	Print head connector
14	LCD panel connector
15	Ribbon end sensor connector
16	TPH Power (24V DC) connector
17	Stepping motor connector
18	Cutter/peel-off connector
19	Paper REWIND connector
20	Micro processor
21	RS-232C connector
22	Ethernet interface
23	MICRO SD card socket
24	USB interface
25	Upper BM Sensor Connector
26	Wi-Fi interface

---

### 3. MECHANISM

#### 3.1 Remove the Lower Front Panel

1. Unscrew 2 screws to remove the front panel.

2. Reassemble the parts in the reverse procedures.

# MH261T Series

## Bar Code Printer Service Manual

---

### 3.2 Remove the Electronic Cover

1. Open Media Cover and unscrew 2 screws as below.

2. Unscrew 2 screws on back side of the printer.

# MH261T Series

## Bar Code Printer Service Manual

---

3. Take up the electronic cover

4. Reassemble the parts in the reverse procedures.

# MH261T Series

## Bar Code Printer Service Manual

---

### 3.3 Remove the Media Cover

1. Refer 3.2 to open the Electronic Cover.
2. Unscrew 6 screws.
3. Reassemble the parts in the reverse procedures.

# MH261T Series

## Bar Code Printer Service Manual

---

### 3.4 Replacing the Platen Roller Assembly

1. Open the printer cover.
2. Push the print head release lever to open the print head mechanism.

3. Refer to section 3.1 to remove the lower front panel.
4. Unscrew 1 screw to remove the aluminum bar

# MH261T Series

## Bar Code Printer Service Manual

---

5. Unscrew 2 screws to remove the plate.

6. Unscrew 1 screw on the side of the platen roller then take out the platen roller.

7. Reassemble the parts in the reverse procedures.

# MH261T Series

## Bar Code Printer Service Manual

---

### 3.5 Replacing the Printhead Assembly

1. Open the printer cover and print head release lever.

2. Use key or tools to push the hook to the right side.

# MH261T Series

## Bar Code Printer Service Manual

---

3. Carefully disconnect connectors from the print head assembly. Please push the key in the middle of the connector. When the connector becomes loose from the print head connector, you can disconnect and replace it.

Press the key and disconnect connectors.

4. Reassemble the parts in the reverse procedures.

**Note:**

- \* Please use the new print head secure screw enclosed with printer to replace the print head assembly.  
DO NOT re-use the original screw. Use original print head screw will damage the new print head screw hole. This damage is not in the warranty.
- \* Please place the cables on the slot to prevent stuck when reinstall the print head assembly.

# MH261T Series

## Bar Code Printer Service Manual

---

### 3.6 Replacing the LCD Panel Module

1. Refer to section 3.2 to remove the electronics cover.
2. Push the indicated location to disassemble the panel cover

3. Remove the cable and harness from the module.

4. Reassemble the parts in the reverse procedures.

# MH261T Series

## Bar Code Printer Service Manual

---

### 3.7 Replacing the LCD Control Board & LCD Touch Panel

1. Follow the previous step (refer to section 3.6) to remove the LCD panel module.
2. Remove the FPC harness from the LCD control board.

3. Remove the marked six fixed screws (fastened by 5 kg±15% kg-cm) to take out LCD control board, the holder and touch panel can be removed.
4. Reassemble the parts in the reverse procedures.

**Screws location**

**LCD control board**

**Touch panel**

# MH261T Series

## Bar Code Printer Service Manual

---

### 3.7.1 Replacing the USB hub and BT Module

Refer section 3.6 to open the front panel cover

Unscrew indicated location to replace the USB hub and BT module.

# MH261T Series

## Bar Code Printer Service Manual

---

### 3.8 Replacing the GPIO interface

1. Refer 3.2 to remove the electronic cover
2. Unscrew 2 screws from the back side of the printer as indicated.

3. Disconnect the cable from the interface card and mainboard..

4. Reassemble the parts the reverse procedures.

# MH261T Series

## Bar Code Printer Service Manual

---

### 3.9 Replacing the Mainboard

1. Refer 3.2 to remove the electronic cover.
2. Unscrew the indicated screws on the backside of the printer.

# MH261T Series

## Bar Code Printer Service Manual

---

3. Unscrew 2 cooper pillars and 4 screws as below.

# MH261T Series

## Bar Code Printer Service Manual

---

4. Disconnect the connectors

5. Reassemble the parts in reverse procedures.

# MH261T Series

## Bar Code Printer Service Manual

---

### 3.10 Replacing the Parallel Port Board

1. Refer 3.2 to remove electronic cover

2. Disconnect the cable from the main board.

3. Refer 3.9 to remove the main board.

# MH261T Series

## Bar Code Printer Service Manual

---

4. Unscrew 2 screws and unplug the cable form parallel board.

5. Unscrew 2 marked screw as shown

6. Reassemble to parts in reverse procedures.

# MH261T Series

## Bar Code Printer Service Manual

---

### 3.11 Replacing the Power Supply Unit

1. Refer to section 3.2 to remove the electronics cover.
2. Refer to section 3.9 to remove the main board.
3. Remove 2 screws (fastened by  $7.5 \text{ kg} \pm 15\% \text{ kg-cm}$ ) and 2 copper pillars as indicated.

4. Unplug the cable to remove the power supply

5. Reassemble the parts in the reverse procedures.

# MH261T Series

## Bar Code Printer Service Manual

---

### 3.12 Replacing Motor Assembly

1. Refer to section 3.2 to remove the electronic cover.
2. Remove 4 marked screws and unplug the cable.

3. Reassemble the parts in the reverse procedures.

# MH261T Series

## Bar Code Printer Service Manual

---

### 3.13 Replacing Media Spindle

1. Refer to section 3.2 to remove the electronics cover.
2. Refer to section 3.9 to remove mainboard.
3. Refer to section 3.10 to remove power supply.
4. Unscrew the indicated screw as below.

5. Pull and remove media spindle

## MH261T Series

### Bar Code Printer Service Manual

---

4. Reassemble the parts in the reverse procedures.

# MH261T Series

## Bar Code Printer Service Manual

---

### 3.14 Replacing Media Guide Bar

1. Refer to section 3.2 to remove the electronics cover.
2. Refer 3.9 to remove the main board.
3. Refer 3.10 to remove the power supply.
4. Remove the marked hex screw.

5. Remove the Media Guide Bar

## MH261T Series

### Bar Code Printer Service Manual

---

6. Reassemble the parts in the reverse procedures.

# MH261T Series

## Bar Code Printer Service Manual

---

### 3.15 Replacing Ribbon Supply Spindle

1. Refer to section 3.2 to remove the electronics cover.
2. Remove the marked hex screw.

3. Remove the ribbon supply assembly.

4. Reassemble the parts in the reverse procedures.

# MH261T Series

## Bar Code Printer Service Manual

---

### 3.16 Replacing Ribbon Rewind Spindle

1. Refer to section 3.2 to remove the electronics cover.
2. Remove the marked hex screw.

3. Remove the ribbon rewind spindle.
4. Reassemble the parts in the reverse procedures.

# MH261T Series

## Bar Code Printer Service Manual

---

### 3.17 Replacing Damper

1. Refer to section 3.2 to remove the electronics cover.

2. Remove the marked hex screw.

# MH261T Series

## Bar Code Printer Service Manual

---

3. Remove the damper.

4. Reassemble the parts in the reverse procedures.

# MH261T Series

## Bar Code Printer Service Manual

---

### 3.18 Replacing Gap/Black Mark Sensor Module

1. Refer to section 3.2 to remove the electronics cover.
2. Disconnect the gap/black mark sensor connectors from the main board.

3. Unscrew the marked 2 screws

4. Pull out the Gap/Black Mark sensor module

# MH261T Series

## Bar Code Printer Service Manual

---

5. Reassemble the parts in reverse procedure.

# MH261T Series

## Bar Code Printer Service Manual

---

### 3.19 Cutter Module Installation (Option)

1. Refer to section 3.1 to remove the lower front panel.

2. Use tool to pry up the cutter.

# MH261T Series

## Bar Code Printer Service Manual

---

3. Refer 3.2 to remove the lower front cover.

# MH261T Series

## Bar Code Printer Service Manual

---

4. Place the cutter as indicated position and let cables go under through print module.

4. Screw 2 screws as shown.

5. Press to close the cutter.

# MH261T Series

## Bar Code Printer Service Manual

---

6. Connect the cable into the slot.

7. Remove the parts in reverse procedures.

# MH261T Series

## Bar Code Printer Service Manual

---

### 3.20 Peel-off Kit Installation (Option)

1. Take the 2 screws and the gears.

2. Install the bigger one on the indicated position and fasten the screw

# MH261T Series

## Bar Code Printer Service Manual

---

3. Install the smaller one and fasten the gear.

2. Take 2 rings as shown.

3. Place 1 ring in below position.

# MH261T Series

## Bar Code Printer Service Manual

---

4. Install the peeler's spindle.

5. Place the other ring from electronic cover's side and push it into bottom.

6. Take 2 circlip as shown

# MH261T Series Bar Code Printer Service Manual

---

6. Insert 1 circlip at below position

7. Put the third gear into the spindle.

# MH261T Series

## Bar Code Printer Service Manual

---

8. Insert second circlip on below position

9. Refer to 3.1 to remove the lower front panel.

10. Fasten 2 screws at marked position.

9. Connect the cables into the slot between damper and the peeler spindle.

# MH261T Series

## Bar Code Printer Service Manual

---

3. Remove the parts in the reverse procedures.

# MH261T Series

## Bar Code Printer Service Manual

---

### 3.21 Internal Rewinder Installation (Option)

1. Take the 2 screws and the gears.

2. Install the bigger one on the indicated position and fasten the screw

# MH261T Series

## Bar Code Printer Service Manual

---

3. Install the smaller one and fasten the gear.

4. Take 2 rings as shown.

5. Place 1 ring in below position.

# MH261T Series

## Bar Code Printer Service Manual

---

6. Install the rewinder's spindle.

7. Place the other ring from electronic cover's side and push it into bottom.

8. Take 2 circlip as shown

# MH261T Series Bar Code Printer Service Manual

---

9. Insert 1 circlip at below position

10. Put the third gear into the spindle.

## MH261T Series

### Bar Code Printer Service Manual

---

11. Insert second circlip on below position

12. Refer to 3.1 to remove the lower front panel.

13. Install front cover and fasten 2 screws at marked position.

# MH261T Series

## Bar Code Printer Service Manual

---

11. Remove the parts in reverse procedures.

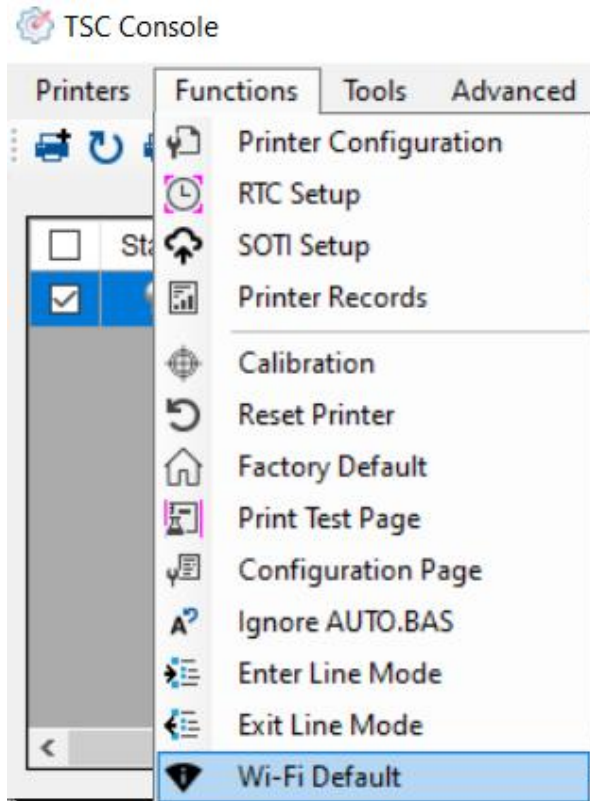

# MH261T Series

## Bar Code Printer Service Manual

---

### 3.22 WiFi Module Installation (Option)

1. Before replacing the new Wi-Fi module, please set the default to clear the old Wi-Fi settings in the printer via TSC Console. And you need to reset the Wi-Fi settings after replacing the new Wi-Fi module.

2. Refer 3.2 to remove the electronic cover.
3. Install WiFi housing.

# MH261T Series

## Bar Code Printer Service Manual

---

4. Connect the cables to mainboard.

# MH261T Series

## Bar Code Printer Service Manual

---

5. Fasten 2 screws on housing.

6. Insert the WiFi+BT Combo module and fasten the other 2 screws.

7. Reassemble the parts in reverse procedures.

# MH261T Series

### 5. MAINTENANCE

---

This session presents the clean tools and methods to maintain your printer.

- **For Cleaning**

Depending on the media used, the printer may accumulate residues (media dust, adhesives, etc.) as a by-product of normal printing. To maintain the best printing quality, you should remove these residues by cleaning the printer periodically. Regularly clean the print head and supply sensors once change a new media to keep the printer at the optimized performance and extend printer life.

- **For Disinfecting**

Sanitize your printer to protect yourself and others and can help prevent the spread of viruses.

- **Important**

- Set the printer power switch to O (Off) prior to performing any cleaning or disinfecting tasks. Leave the power cord connected to keep the printer grounded and to reduce the risk of electrostatic damage.
- Do not wear rings or other metallic objects while cleaning any interior area of the printer.
- Use only the cleaning agents recommended in this document. Use of other agents may damage the printer and void its warranty.
- Do not spray or drip liquid cleaning solutions directly into the printer. Apply the solution on a clean lint-free cloth and then apply the dampened cloth to the printer.
- Do not use canned air in the interior of the printer as it can blow dust and debris onto sensors and other critical components.
- Only use a vacuum cleaner with a nozzle and hose that are conductive and grounded to drain off static build up.
- All reference in these procedures for use of isopropyl alcohol requires that a 99% or greater isopropyl alcohol content be used to reduce the risk of moisture corrosion to the printhead.
- Do not touch printhead by hand. If you touch it carelessly, please use 99% Isopropyl alcohol to clean it.
- Always taking personal precaution when using any cleaning agent.

- **Cleaning Tools**

- Cotton swab
- Lint-free cloth
- Brush with soft non-metallic bristles
- Vacuum cleaner
- 75% Ethanol (for disinfecting)

---

- 99% Isopropyl alcohol (for printhead and platen roller cleaning)
- Genuine printhead cleaning pen
- Mild detergent (without chlorine)

• **Cleaning Process**

Printer Part	Method	Interval
<b>Print Head</b>	<ol style="list-style-type: none"> <li>1. Always turn off the printer before cleaning the printhead.</li> <li>2. Allow the printhead to cool for a minimum of one minute.</li> <li>3. Use a cotton swab and 99% Isopropyl Alcohol or genuine print head cleaning pen to clean the print head surface.</li> </ol>	Clean the print head when changing a new label roll.
<b>Platen Roller</b>	<ol style="list-style-type: none"> <li>1. Turn off the printer.</li> <li>2. Rotate the platen roller and wipe it thoroughly with the lint-free 99% Isopropyl Alcohol.</li> </ol>	Clean the platen roller when changing a new label roll
<b>Peel Bar</b>	Use the lint-free cloth with 99% Isopropyl Alcohol to wipe it.	As needed
<b>Sensor</b>	Use a brush with soft non-metallic bristles or a vacuum cleaner, described above, to remove paper dust. The upper and lower media sensors should be cleaned to ensure reliable Top of Form and Paper Out sensing.	Monthly
<b>Exterior</b>	Clean the exterior surfaces with a clean, lint-free cloth (water-dampened cloth). If necessary, use a mild detergent or desktop cleaning solution then use the 75% Ethanol to wipe it.	As needed
<b>Interior</b>	Clean the interior of the printer by removing any dirt and lint with a vacuum cleaner, as described above, or use a brush with soft non-metallic bristles then use the 75% Ethanol to wipe it.	As needed
